

# TRAFFIC FLOW - DRIVE THOUGH

- - - Traffic queue

..... Re-join queue if child not there.

## DRIVE THROUGH PICK-UP ZONE

- Cars will enter the car park from a southerly direction. i.e. enter Angelico Street from Sabina Street.
- Only a left hand turn into the car park will be allowed as turning right from Angelico Street will cause congestion and frustration.
- Children will enter their car under staff direction, after it pulls up in front of the Parish Hall verandah.
- Parents should remain in their car and children are only to enter from the passenger side of the vehicle.
- Due to the pick up zone there may be limited access to the parking bays designated for students with disabilities
- It is imperative that children move directly to the pick up zone after dismissal from class.
- |If a child is not at the pick up zone when their car reaches the front of the queue, the driver needs to either park and get out to collect the child or re-join the queue.
- Parents/carers may still park in the car park to collect children but must be aware of the following:
  - \* Children must always be supervised in the car park.
  - \* The drive through area must not be blocked in any way.
  - \* Care needs to be taken when leaving parking bays.
- When exiting the car park it is preferable that cars turn **left only** and head in a northerly direction as visibility will be limited.
- Please give a copy of this document to anyone likely to collect your child and ask them to keep it in their car for future reference.
- Parking and driving can be very stressful. Following the rules and always being courteous will ensure smooth operation of the drive through pick up. If the queue is not moving quickly, turn on your favourite CD and relax. The peace will soon be shattered when your children get into the car!
